

Management Team

Dietmar Pörtl Chief Technology Officer (CTO)

Dietmar Pörtl serves as Chief Technology Officer (CTO) and member of the senior management team at Tele Columbus AG since October 2018. In this role, he is responsible for central technics, construction and infrastructure projects, the development and operation of the IP services, network operations and the technical service. His primary task is to drive forward technical innovations in the network infrastructure and to expand the regional performance leadership in broadband services.

Dietmar Pörtl holds a Master's degree in electrical engineering and has more than two decades of professional experience in the cable and telecommunications sector. Before joining the Tele Columbus Group, he served as Vice President Service Assurance Center at Vodafone and was responsible for the operations of mobile, cable and fixed-line. Previous to that, he was Vice President Central Network and Assurance Management at Kabel Deutschland. In doing so he led the harmonisation and the extension of Kabel Deutschland's HFC network following the takeover by Vodafone. Earlier in his career, the native Austrian worked as at T-Mobile Austria, T-Mobile International as well as Tele2.
