

Management Team

Roland Schleicher **Chief Operations Officer (COO)**

Roland Schleicher has been at the Tele Columbus Group since October 2016. He initially held the position of Chief Business Transformation Officer (CBTO) before being appointed Chief Operations Officer (COO) in July 2018. Additionally he is a member of the senior management team at Tele Columbus AG. In this role, the business information and MBA graduate is responsible for customer operations, quality management, IT and the digital transformation of all operational processes within the Company. His aim is to establish the PÿUR brand as a reference point for customer satisfaction within the telecommunications industry. His current focus lies on developing digital channels and automating important operational processes across the company.

Before moving to Tele Columbus AG, Roland worked as a consultant for almost ten years, most recently as Associate Partner for McKinsey, in which role he oversaw strategy and transformation projects for international telecommunications providers.
